HR Analysis and Future Outlook

شهبا بنك
SHAHBA BANK

POWER OF TRUST

Introduction

As part of our ongoing commitment to organizational excellence, this presentation provides a comprehensive overview of Shahba Bank's workforce dynamics and strategic priorities for 2025. The analysis covers key areas, including employee attrition, demographic trends, training objectives, recruitment needs, and market benchmarking, to ensure Shahba Bank remains competitive and aligned with industry standards.

Presentation Outline:

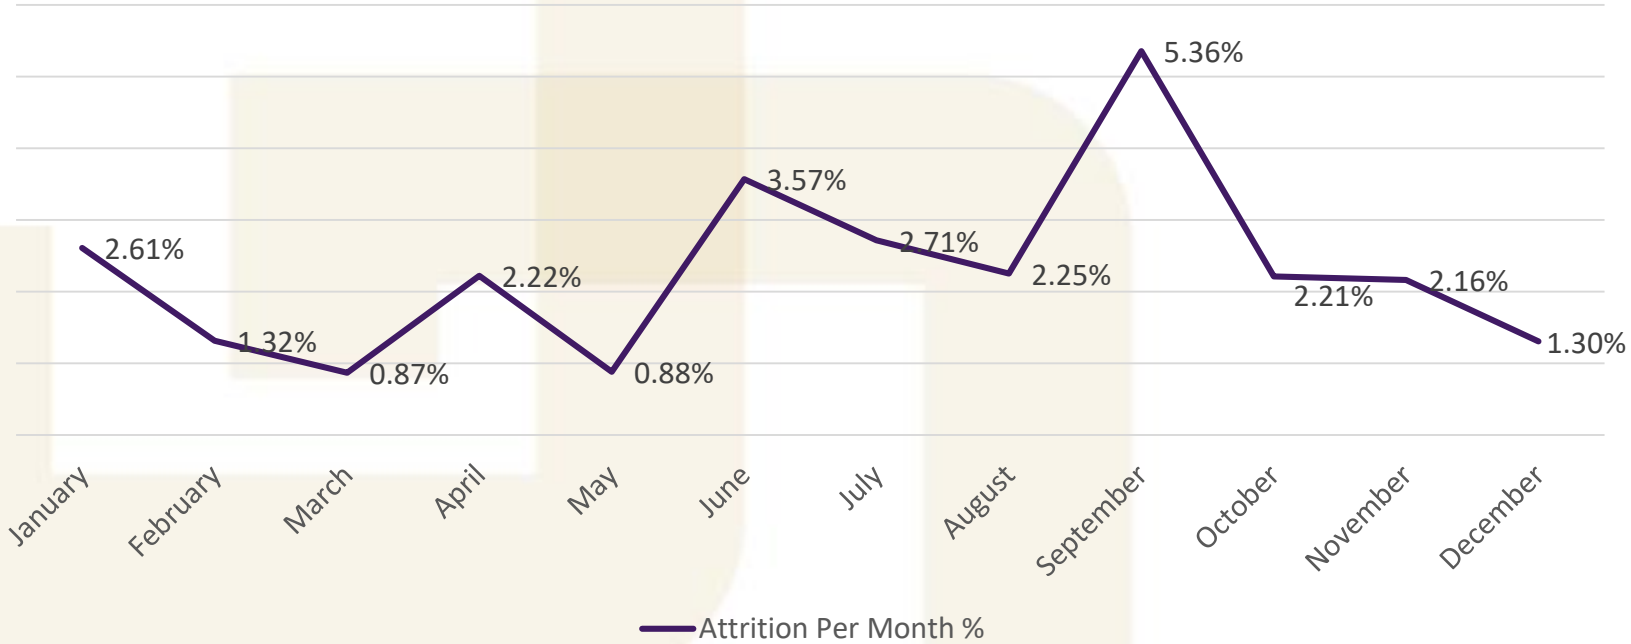

1. Employee Attrition Overview – 2024
2. Employee Gender Distribution
3. Employee Distribution by Educational Qualifications
4. Age Demographics of Employees
5. Training Strategy and Objectives – 2025
6. Recruitment Needs – 2025
7. Key Drivers of 2025 Recruitment Needs
8. Shahba Bank vs Market Workforce & Branch Comparison
9. Salaries Benchmarking Analysis

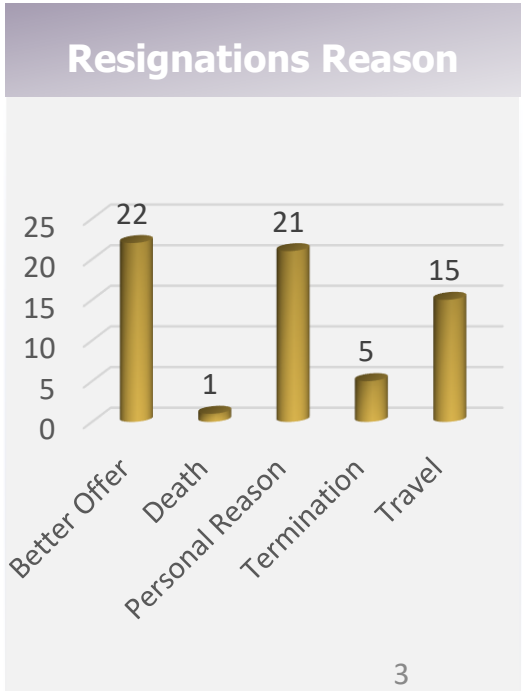

Employee Attrition Overview - 2024

The Human Resources has diligently monitored employee turnover throughout 2024 and swiftly implemented measures to address the gaps resulting from resignations by attracting and onboarding new talents.

- Total Resignations in 2024: 64 employees, representing an attrition rate of 28%
- New Hires in 2024: 60 employees were recruited to fill the vacancies.

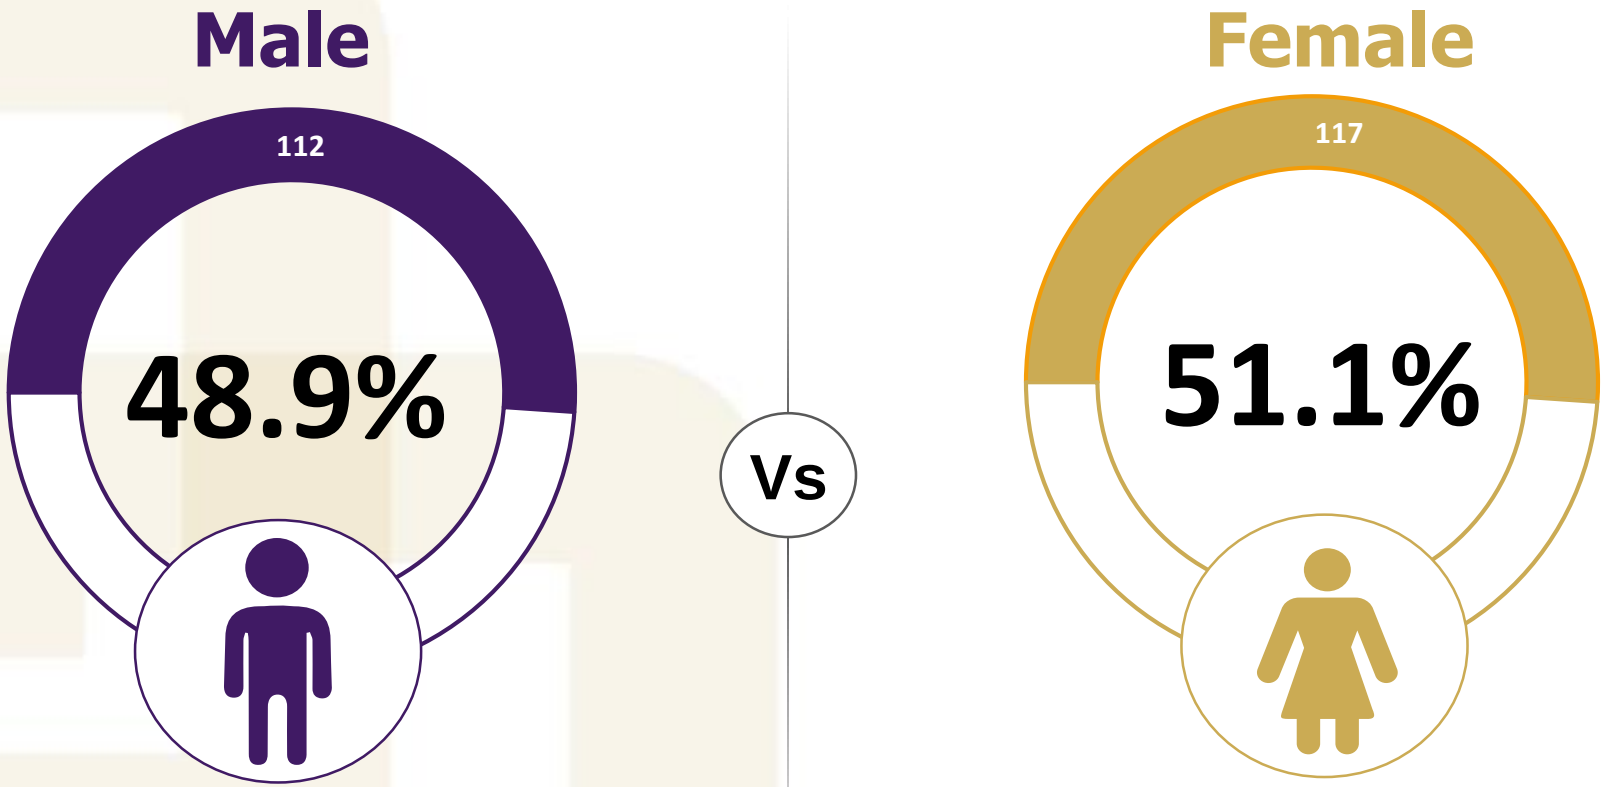

Throughout the year, the bank achieved a recruitment efficiency rate of 96.7%, reflecting our commitment to maintaining a stable operational processes and skilled workforce.

Employee Gender Distribution

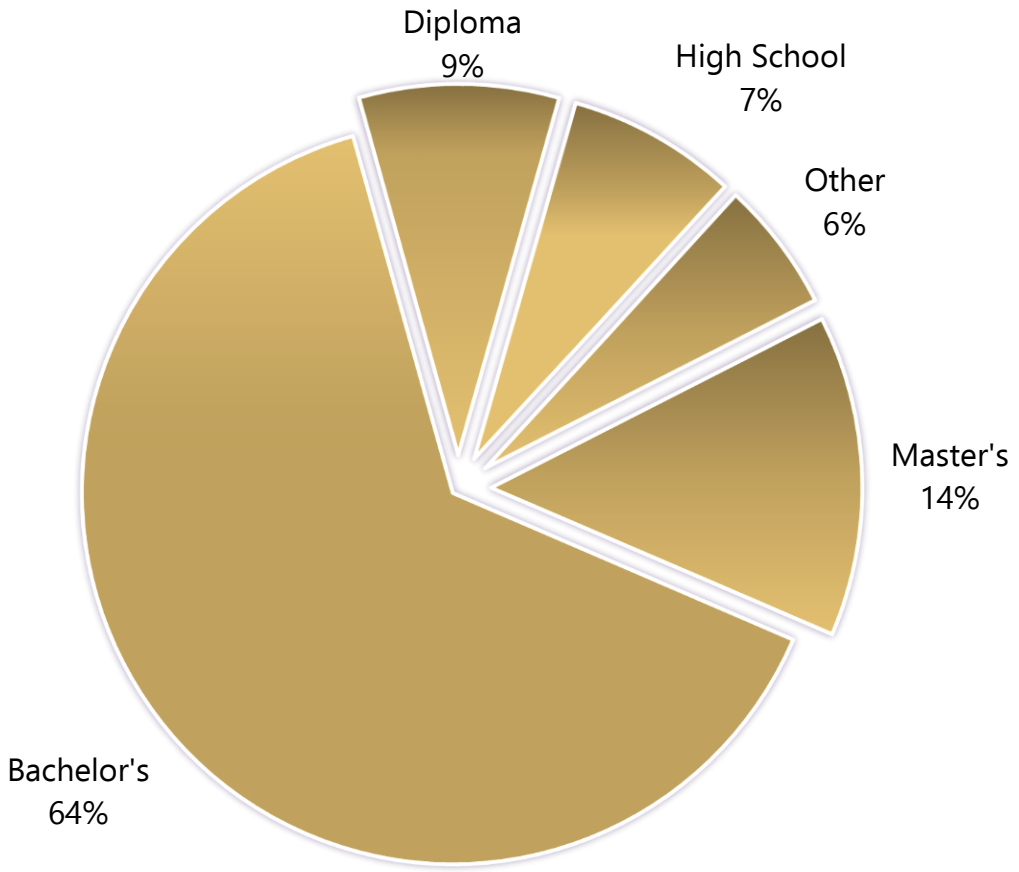

Shahba Bank is proud to maintain a balanced and inclusive workforce, reflecting our commitment to diversity and equality.

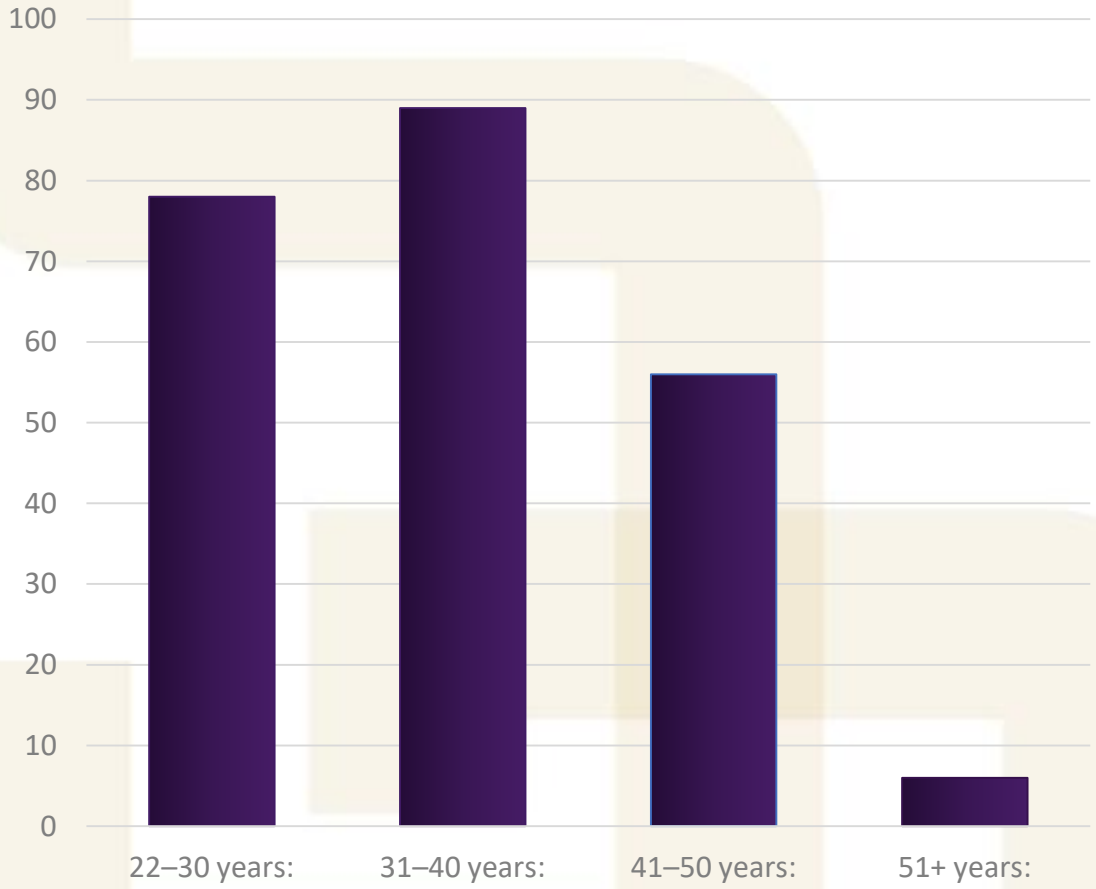

Employee Distribution by Educational Qualifications

Total Employees: 229

- Master’s Degree: 14% (32 employees)
- Bachelor’s Degree: 64.2% (147 employees)
- Diploma Certificate: 8.7% (20 employees)
- High School: 7.4% (17 employees)
- Other Qualifications: 5.7% (13 employees)

Age Demographics of Employees

As part of our commitment to understanding and optimizing our workforce, we have analyzed the age distribution of our employees. Below is an overview of the age groups within the bank:

Age Distribution Overview

- Total Employees: 229
- Age Range: 22 to 61 years
- Average Age: 35 years

Age Groups

- 22–30 years: 78 employees (34.1%)
- 31–40 years: 89 employees (38.9%)
- 41–50 years: 56 employees (24.5%)
- 51+ years: 6 employees (2.6%)

Training Strategy and Objectives - 2025

Training Approach

Shahba Bank and the HR believe that training—whether internal or through specialized external centers—aims to:

- Enhance employee skills and productivity.
- Prepare employees to become reliable leaders who can train others and make sound decisions.
- Achieve excellence in service quality.

Current Challenges

The exceptional circumstances have created new challenges, including:

- Selecting appropriate and effective training programs.
- Controlling costs while achieving tangible results.

Training Plan

- Shahba Bank and the HR will implement the training plan through the following channels:

BTC (Banking Training Center)

Leverage announced training programs from the BTC to enhance employee competencies

External Training

Contract with external centers to deliver intensive and specialized training programs

Internal Training

Utilize the experience of current employees to deliver internal training programs

Key Drivers of 2025 Recruitment Needs

The majority of our recruitment needs for this year are driven by three key factors:

1. **Replacing Resigned Employees:** A significant portion of the hiring is focused on filling positions left vacant by employees who have resigned, ensuring continuity in operations and maintaining service quality.
2. **Addressing New Workload Demands:** Some roles, such as in **Administration**, are required due to increased workload pressures, ensuring that all departments operate efficiently without overburdening existing staff.
3. **Supporting New Branch Openings:** Additionally, we are recruiting to staff the new branches planned for opening, aligning with our expansion strategy.

To ensure optimal workforce planning, we conduct regular workload analysis across all departments. This helps us verify that all employees are working efficiently and that staffing levels are aligned with operational demands.

Additional Note:

- The total recruitment requests received from departments amounted to **45 employees**. However, after conducting a detailed workload analysis, this number was reduced to **25 employees**. This reduction reflects our commitment to balancing actual needs with operational efficiency, ensuring that staffing levels are optimized without unnecessary increases in operational costs.
- Additionally, the TMO (Transactions Monitoring Officer) position is required as per the regulations and requirements of the CBoS.

Next Slide: A detailed breakdown of our current recruitment needs will be presented.

Detailed breakdown of our recruitment needs

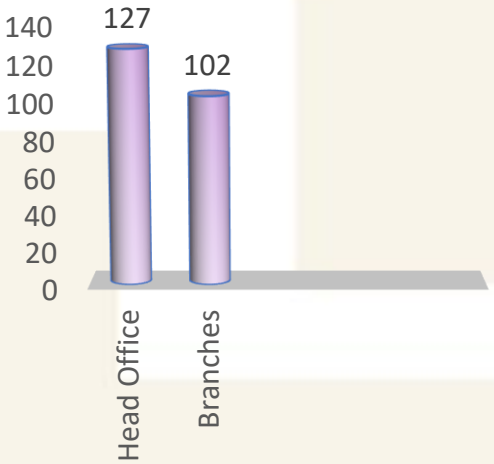

Department / Branch	Count	Position	Reason
Administration	2	Administration	New Workload Demands
Compliance	1	Transaction Monitoring Officer – Aleppo	Required as per CBoS regulations
